EVERY CREATURE COUNTS - FERAL CAT SERVICES

Every Creature Counts offers a service to the community to decrease the feral cat population and help people involved with TNR (trap-neuter-return), by offering spay/neuter and vaccination services.

FERAL CAT PACKAGE - \$15

Spay or neuter, 4-in-1 combination vaccine (Feline panleukopenia/rhinotracheitis/calicivirus/chlamydia), rabies vaccine, & penicillin injection.

Appointments are not necessary for feral cats, however, cats need to be dropped off and picked up during the designated times. Please call ahead to confirm any closure dates.

Patient Drop-off 7:00 am - 7:30 am

Patient Pick-up 3:00 pm - 4:30 pm

Cats must arrive in separate traps. Individual carriers, with clean bedding, must be provided for cats to recuperate in following surgery. It is recommended that cats are kept in a protected area following surgery, to allow for post-surgical monitoring. The area should be clean, warm, and dry, and isolated from other animals. Check on the cat periodically to ensure that recovery is progressing. If you see any signs of bleeding, difficulty breathing, or excessive vomiting, please contact Every Creature Counts immediately. It is recommended that males be monitored for 24 hours following surgery and females be monitored for 36 to 48 hours following surgery. All services are cash only and payment is due at time of service.
