Permit for Open Burning Instructions and Application Form

In the City of Fort Lupton, a permit from the City and the Fire Department is required for any open burning. Permits are approved based on the materials to be burned and air quality considerations. There is only one type of burning that can qualify for a permit:

Permits are NOT required for so-called “recreational burns” such as pep-rallies, non-commercial cookouts, etc. but you should check with your local fire department prior to such activities.

Burning of trash, garbage, construction debris and other man-made materials is NOT permitted in the City at any time.

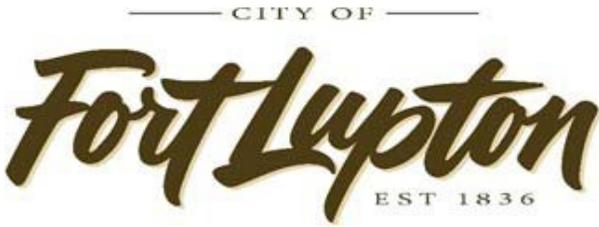

To apply for a permit:

- COMPLETE page 1 of the application. Section 3 of the application must be approved by a City official. Once approved by the City, the City will forward the application to the Fire Department to insure compliance with applicable fire and safety standards.

Please allow a minimum of one week from the time the application is submitted for the City to review your request.

Note: **Burn permits are valid from January 1st – December 31st.**

Any person who burns without first obtaining a permit as required may be subject to a civil penalty of up to one hundred dollars per day for each day such a violation occurs.
